

FREE Project Idea

Spring Egg Topiaries

Designed by Dondi Richardson/FloraCraft

Supplies

STYROFOAM™ Brand Foam:

Three - 4" Eggs

Three - 3" balls

Three - 3" Clay Pots

Acrylic Paint: Pastel Yellow, Light Green,
Pink and White

Three Craft Sticks

Plastic grass (Easter grass)

Low Temp Glue Gun

Directions

Use the acrylic paint to paint the rims of the pots and craft sticks. Paint each rim inside and out a pastel shade. Paint three craft sticks each a pastel shade. Paint the bottoms of each pot white. Let dry.

Glue a 3" foam ball into each clay pot.

Glue a pastel craft stick 1" into the wide end of each egg.

Paint each egg with two thick coats of a pastel color, allowing them to dry completely between coats. Use the remaining paint to add stripes and dots to the eggs as desired.

Glue the craft stick, attached to the egg, centered in the ball in the top of the pot. Glue plastic grass to cover the ball.
