Stained Glass Block Light

Supplies

Alcohol Inks
Tim Holtz Idea-ology
Embellishments & Feet
Clear Cello Wrap
Strand of White Lights
E6000 Glue

Directions

1. Apply Alcohol ink to your glass block. Let dry completely.
2. Glue Tim Holtz Idea-ology embellishments and feet to the glass block. Tip: Build the glass block with the hole at the bottom as that's where your light cord will come out.
3. Stuff your light strand into the glass block.
4. Stuff the clear cello wrap into the glass block around the lights. This gives the light a glowing effect and holds your lights in place.
5. Plug it in and enjoy!
